1. The attached revision of [REDACTED] is submitted for your formal concurrence prior to submission to the Deputy Director (Plans) for authentication.

25X1A

2. The major difference between the revised [REDACTED] and the existing regulation is the addition of paragraph 7b(5). This change was initiated by the Chief, Project Administrative Planning Staff in order to define the authority required to drop accountability for equipment and supplies [REDACTED]. Coordination of this change was effected with and concurrences obtained from the Deputy Director (Plans), Deputy Director (Intelligence), Inspector General, and Chiefs of Staffs and Directors of Offices under the jurisdiction of the Deputy Director (Support).

25X1C

3. Other differences between the attached and the existing regulation are as follows:

a. The first statement in the existing regulation reads: "The prescribed system of supply accounting is set forth in detail in [REDACTED]" This language has been changed since the [REDACTED] was approved and disseminated on a test basis only and processing of the [REDACTED] has not yet been completed.

c. Paragraphs 3e(1)(b) and (c) have been added to incorporate the procedures prescribed in proposed Notice [REDACTED] This notice has been approved for submission to the Deputy Director (Plans) for authentication. Transmission of the notice to DD/P has been held up because the procedures appear to be permanent in nature and therefore regulatory rather than notice material. Cancellation of the proposed notice and incorporation of the procedures in the revised [REDACTED] has the concurrence of the Director of Logistics.
